

Some organic compounds.

1. Benzoic acid
2. Butanoic acid
3. Ethanoic acid (acetic)
4. Methanoic acid (formic)
5. Fumaric acid
6. Phosphatidic acid
7. Maleic acid
8. Oleic acid
9. Propanoic acid
10. Stearic acid
11. 2,2,2-trichloro ethanoic acid (trichloroacetic acid)
12. Alanine
13. Acetic anhydride
14. Aniline
15. Benzaldehyde
16. Benzoquinone and hydroquinone
17. Butanol
18. Butanal
19. Cholesterol
20. 1,3,5 hexatriene
21. Ethane
22. Ethanol
23. Ethanal
24. Diphenyl ether
25. Ethine (acetylene)
26. Fructose
27. Furan
28. Tetrahydrofuran
29. Galactose
30. Glycine
31. Glyceraldehyde
32. Glucose
33. Imidazole
34. Lactose
35. Maltose and cellobiose
36. Methanal (formaldehyde)
37. Methanol
38. Methylbenzene (toluene)
39. Naphthalene
40. Phenyl-ethyl ether
41. Phenol
42. 1,2,3 propanetriol (glycerol, glycerine)
43. Propanol
44. Propanone
45. Pyran and tetrahydropyran
46. Pyridine and pyrimidine
47. Pyrrole
48. Purine
49. Ribose
50. Saccharose
51. Trichloromethane (chloroform)
52. Urea
