

Comparative and European Public Law - Written Test 7.12.2023

Results*

(*Notes of explanation are provided only for the lower grades: <24)

Please remember:

1. You can either accept the grade and have it registered straightforward or try the oral exam to improve it.
2. You can have the grade registered simply by registering on Infostud for any of the scheduled call and present themselves for the registration in presence. In case of absolute impossibility (i.e. Erasmus students concluding their stay), write me an email asking for the registration (but you need to register on Infostud anyway).
3. You can as well refuse the grade and take the full exam just orally.
4. Reporting a grade with a “+” means that it is highly recommended to present to improve the grade (but you can try to improve the grade in any case).
5. Those who scored 30 can present themselves for a further question for honors.
6. For any further information you can send an email to angelo.schillaci@uniroma1.it
