The slides should be prepared in English.

This report is intended to check the progress of the group work and whether it is converging or not.

All students of all groups must attend.

The presence will be registered on May 26 for students of the groups: Carioca, RELIC, Ncav 2, MDT, Slyt, Sfera, Brooklyn, V3D_Joint, Virgo_PI, Virgo_DA 1, Virgo_DA 2.

The presence will be registered on May 29 for students of the groups: Micromega, Paprica, Timing, Mimega, Arducipm, VitaMu, Lasgas, Dream, Cygno, FPGA, ECAL/SAND.

Each student must have fulfilled in advance the obligation to:

- upload the certificate of attendance and training completion to the e-learning platform;
- complete the self-certification of laboratory safety training on the e-learning platform.
