Mark Ludwig Milano

1 Introductions

- I graduated in Aerospace Engineering in Sapienza
- I have a strong passion for aircraft and civil aviation.
- I grew up plane spotting and piloting every aircraft I knew on flight simulator.
- I see myself in the future working wherever an aircraft is.

Gabriele Cappelletti

1 Introductions

- I'm a 24 years old guy from Rome.
- I graduated in Aerospace engineering at Sapienza in 2022.
- I'd like to understand better the job opportunities of this field and I'm interested in finding out how technical teams work and what the strategies are.

Pasquale Scarano

1 Introductions

- I'm an Msc student in Aeronautical Engineering.
- I graduated in Aerospace engineering at Sapienza in 2021.
- I am a student pilot for VDS basic level.
- I signed up for this innovative course because I believe it can provide me with fundamental knowledge on maintenance management and flight procedures.

Nicola Biscione

1 Introductions

- I'm an Msc student in Aeronautical Engineering.
- I graduated in Aerospace engineering at Sapienza in 2022.
- I have always wanted to become a commercial pilot
- I believe that this course is an opportunity to better understand all operational and work-related aspects.
