CIVIL AVIATION

- Refers to all **non-military flights** covering the diverse range of activities serving different purposes and meeting various transportation and recreational needs.
- It includes the operation, regulation and management of aircraft for civilian purposes such as transportation, recreation and commerce.

STAKEHOLDERS

- **The stakeholders** are all the parties with an interest, to varying degrees, in the activities, services, and outcomes achieved by ENAC.
- The Stakeholder portfolio is divided into 6 categories, grouped into 3 homogeneous classes based on the type of interaction with the Authority
