

SAPIENZA
UNIVERSITÀ DI ROMA

Lorraine
Georgia Institute of Technology

Dear ,

It was a great pleasure to meet with you on October 17th on the campus of Sapienza to discuss the double degree opportunity with Georgia Tech.

The international relations office of Sapienza is expecting your decision within the next few days. Time is running out, but you can still apply to this program of excellence.

With campuses throughout the world, Georgia Institute of Technology is one of the finest engineering universities in the US and around the globe. Its Masters degree program will enable you to achieve international engineering preeminence as well as high visibility on the job market. You will graduate from a world-renowned program of excellence that possesses a high integration of academia, research and economic development and that provides a high return on your investment. Our [international graduates](#) gain an enriched and multi-cultural perspective on engineering and our [corporate partners](#) value the global and international experience brought by the program.

Thanks to the partnership between the Georgia Institute of Technology, Georgia Tech Lorraine and Sapienza, you can graduate both with the Master of Mechanical Engineering from Georgia Tech and the Laurea Magistrale from Sapienza.

In applying to this program, you will be evaluated based on your academic performance at the end of this first year at your current institution: so, maximize your chances by being ranked in the top 25%. You may also start preparing for the GRE and TOEFL tests by looking at the [ETS website](#).

We invite you, as well, to visit our website where you can find information on [admission requirements](#), academic programs and research.

Cordially,

Bertrand P. Boussert

Academic Program Coordinator
Georgia Tech Lorraine
